EXPERIENCE

Finalist – Circle Edge National Competition

Shangri-La Colombo

Nov 2025 Colombo, Sri Lanka

- Recognized for excellence in technical architecture and system planning.
- Awarded the Innovative Software Solution Award for delivering a scalable solution.

Participant – Genesys Hackathon

IJSE Institute of Software Engineering

Jun 2024 Panadura, Sri Lanka

- Semi-finalist in a competitive 24-hour national hackathon, collaborating in a fast-paced environment to design and implement core system features.
- Collaborated in a fast-paced team environment to design and implement core system features.

PROJECTS

SmartStay Hotel Management System

Spring Boot, MySQL, SMTP

2025 - Present

- Engineered a scalable hotel booking engine, accelerating booking processing by 30% through streamlined API routing.
- Created RESTful APIs for reservations, room management,payment integration, and mechanized email notification systems.

HandSpire Craft Platform

React, Node.js, MongoDB

2026 - Present

- Launched a full-stack marketplace featuring high-concurrency API routing to ensure seamless traffic flow.
- Implemented a multi-layered authentication system to safeguard vendor data integrity and platform security.
- Developed a library of reusable, responsive UI components, ensuring a consistent user experience across mobile and desktop devices.

Streakify Habit Tracker

React Native, Expo, TypeScript

2026 - Present

- Built a cross-platform mobile habit-tracking application with offline-first data persistence using AsyncStorage.
- Planned an intuitive and responsive mobile UI focused on productivity tracking.

SUMMARY

Aspiring Full-Stack Developer with a strong foundation in Computer Science and expertise in architecting scalable systems. Skilled in designing and developing scalable end-to-end web applications using Spring Boot, Java, MySQL, and the MERN stack. Experienced in transforming UI/UX designs into responsive, high-performance applications. Committed to developing well-structured, efficient code while ensuring intuitive and user-focused application design.

TECHNICAL SKILLS

Frontend & UI/UX

- React.js
- React Native
- TypeScript
- Figma
- Tailwind CSS

Backend

- Java (Spring Boot)
- Node.js & Express
- Python

Tools & Workflow

- Git & GitHub
- Postman
- Agile/Scrum

Database & Cloud

- MySQL
- MongoDB
- Firebase

CERTIFICATIONS

Diploma in Information Technology
ESOFT Metro Campus

Circle Edge Certificate
IJSE

GENESYS Hackathon
IJSE

PROJECTS

Patient Risk Stratification System

Python, BeautifulSoup, Seaborn, Data Analysis

2026 - Present

- Formulated a Vitality Complexity Index that streamlined the processing of large clinical datasets to accurately categorize high-priority patient cases.
- Translated complex clinical data into actionable medical insights using interactive Seaborn visualizations, directly assisting staff in triage accuracy.

The Book Nook – Bookshop Management System

Java, MySQL

2024 - Present

- Architected a comprehensive bookstore management system to automate book inventory, sales tracking and customer management, improving operational efficiency by 25% through systematized inventory tracking.
- Designed interactive dashboards to visualize sales trends and inventory levels, enabling real-time stock monitoring and centralized insights for retail staff.

EDUCATION

Undergraduate in Computer Science

IJSE Institute of Software Engineering

Feb 2024 - Present Galle, Sri Lanka

Diploma in Information Technology

ESOFT Metro Campus

Jun 2022 -Jun 2023 Bandarawela, Sri Lanka

GCE O/L & A/L (Physical Sciences)

Vishaka Girls' College

Jan 2008 - Dec 2021 Bandarawela, Sri Lanka
