EXPERIENCE

Finalist – Circle Edge National Competition

Shangri-La Colombo

 2025  Colombo, Sri Lanka

- Recognized for excellence in technical architecture and system design
- Awarded the Innovative Software Solution Award for delivering a scalable and impactful solution, being selected among the top 6 finalists in the national competition.

Participant – Genesis Hackathon

IJSE Institute of Software Engineering

 2024  Panadura, Sri Lanka

- Selected for the semi-final round in a competitive 24-hour national hackathon.
- Collaborated in a fast-paced team environment to design and implement core system features.

PROJECTS

SmartStay Hotel Management System

Spring Boot, MySQL, SMTP

 2025- Present

- Architected a scalable hotel booking engine with secure JWT authentication and role-based access control.
- Optimized database schema design and indexing to enhance booking and transaction performance.
- Designed RESTful APIs for reservations, room management, payment integration and automated email notifications.

HandSpire Craft Platform

React, Node.js, MongoDB

 2026 - Present

- Developed a full-stack craft marketplace with optimized API routing and secure user authentication.
- Built reusable, responsive UI components to ensure seamless cross-device compatibility.
- Structured MongoDB collections to support efficient product management and dynamic content rendering.

Streakify Habit Tracker

React Native, Expo, TypeScript

 2026 - Present

- Built a cross-platform mobile habit-tracking application with offline-first data persistence using AsyncStorage.
- Designed an intuitive and responsive mobile UI focused on productivity tracking.

SUMMARY

Full-Stack Developer with a strong foundation in Computer Science and Information Technology. Skilled in designing and developing scalable end-to-end web applications using Spring Boot, Java, MySQL, and the MERN stack. Experienced in transforming UI/UX designs into responsive, high-performance applications. Passionate about writing clean, maintainable code and delivering seamless user-centered digital experiences.

TECHNICAL SKILLS

Frontend & UI/UX

- [React.js](#)
- [React Native](#)
- [TypeScript](#)
- [Figma](#)
- [Tailwind CSS](#)

Backend

- [Java \(Spring Boot\)](#)
- [Node.js & Express](#)
- [Python](#)

Tools & Workflow

- [Git & GitHub](#)
- [Postman](#)
- [Agile/Scrum](#)

Database & Cloud

- [MySQL](#)
- [MongoDB](#)
- [Firebase](#)

CERTIFICATIONS

Diploma in Information Technology
ESOFT Metro Campus

Circle Edge Certificate
IJSE-Institute of Java & Software Engineering

GENESYS Hackathon
IJSE-Institute of Java & Software Engineering

PROJECTS

Patient Risk Stratification System

Python, BeautifulSoup, Seaborn, Data Analysis

 Jan 2026

- Enhanced medical predictive capabilities by building a Vitality Complexity Index that processes large clinical datasets to identify high-priority patient cases.
 - Translated complex clinical data into actionable medical insights using interactive Seaborn visualizations, directly assisting staff in triage accuracy.
-

The Book Nook – Bookshop Management System

Java, MySQL

 Jan 2024

- Developed a comprehensive bookstore management system to automate book inventory, sales tracking, and customer management, improving operational efficiency.
- Implemented interactive dashboards for sales and inventory insights, enabling staff to quickly monitor stock levels and top-selling books.

EDUCATION

Undergraduate in Computer Science

IJSE Institute of Software Engineering

 2024 - Present

 Galle, Sri Lanka

Diploma in Information Technology

ESOFT Metro Campus

 2022 - 2023

 Bandarawela, Sri Lanka

GCE O/L & A/L (Physical Sciences)

Vishaka Girls' College

 2008-2021

 Bandarawela, Sri Lanka
